I am a designer of God boxes, vases, plates and various items. They are created in three categories: Spiritual, Inspirational and Recovery. All the items are to encourage, inspire and uplift an individual through the words, phrases, prayers on the various items.

It all started with God boxes and I made them for the terminally ill children as a form of writing down their feelings, thoughts and being able to put them somewhere safe, in most cases it was God. Therefore, on the side of the boxes I would write little scriptures, prayers or encouraging sayings. These God boxes DO NOT OPEN! Once it is given to God it is THEN His.

Many of the parents were not acceptable to this God box, their anger was directed at God. However, at the time I was doing it anonymously. The kids took to the boxes immediately. One child in particular would read his entire box to his mom every night before going to bed. Then he would write his note and place in his God box. He eventually passed away. His mom opened the God box and all his notes to God was to take care of his mommy when he died. It took her four years to locate me, as stated was doing anonymously. Today, she is a missionary and a believer. From that day forward I have been continuing this journey of creating God boxes.

I have expanded my territory to include Inspirational and Recovery themes. I have also included various items other than God boxes to plant seeds of encouragement, inspiration and hope.

I know what it is like to have someone believe in you and can pull the very best out of you. I have been faced with so many various life challenges and if it were NOT for God and the people He placed in my path, I don't believe I would be able to relate to pain, emotions, addictions, disorders and things to that order. I can relate and therefore, it's easy to do what I do and that is to give others HOPE and ENCOURAGEMENT on their journey of life.

I am requesting a professional web designer to get me a website going so I can reach more people. I also, am in need of a printer and computer. I believe that what I have created to give hope to others is valuable and desirable. I just need some people to believe in my vision and help to give hope into this project.

Thank you in advance for all your contributions.

Risks and challenges

The challenges are that I work in three categories. The Spiritual aspect of it which entails religion, or a belief in God. Inspirational, which consists of things that can and will encourage and inspire people on a different level, whether it is a boss, sister, brother, neighbor or friend. Recovery, is for those that are in various 12 step programs which include, AA, NA, OA, CA, CoDA.

All of my works are to encourage individuals and inspire them, to breath, hope and have faith where otherwise there was darkness and despair.

I believe what would be challenging is that I work in three categories.
